School hosts successful clothing swap

FRASER — The Emerson Elementary School PTO sponsored a clothing swap Nov. 21 that allowed families to exchange clothing without exchanging money. Families who participated brought in gently used clothing that their children had outgrown and traded for clothing that was the correct size with other families.

“It was thought that in these hard economic times, with many families down and out, we could actually give clothing to families in need by allowing them to ... browse through items on display and take anything they want — absolutely free,” said Principal Ken Madeleine.
